

DURAT for hotels

HOTEL ON RIVINGTON, NEW YORK

## DURAT – material for your dreams

DURAT is a marvellous solid surface material for various kinds of interiors. It is easy to process and the mold technology is flexible. DURAT gives designers a free hand in constructing surfaces. It is an excellent material for hotels, spas and restaurants.

DURAT has an extensive range of sink models to be used in custom made vanity units for bathrooms and public sanitary facilities. DURAT's colour chart is extensive (60 standard colours) and it is also possible to tint colours according to the customers' specific wishes.

DURAT contains recycled plastics and is itself 100% recyclable.

## DURAT for hotels

DURAT bespoke and design products are an excellent alternative for the interior design of hotels. There DURAT is most commonly used for: vanity units, bath tubs, shower trays, tabletops, bartops, service counters and benches.
